

# Opti-Milk Essential™

## Medicated Milk Replacer

- 22.5% protein, 20% fat
- Essential premium nutrition to support healthy young calf growth and set the foundation for their productive future.
- Bovatec®: For control of coccidiosis, and improved rate of gain and feed efficiency.
- Clarify®: Seasonally added to help decrease fly populations by stopping them in their larval stage.

## Calf Care 22:20™

### Non-Medicated Milk Replacer

- 22% protein, 20% fat
- Multi-purpose economical replacer for a healthy start and growth for any calf.

## Milk Replacer Features:

- Milk Protein: for maximum protein digestibility and utilization by the calf.
- Organic Trace Minerals: for optimum bioavailability.
- MOS: a yeast extract prebiotic to develop and support a healthy gut microbiome and increase nutrient absorption.
- b-Glucan: A natural prebiotic that promotes the innate immune system's ability to fight pathogens.
- MCTs: Medium chain triglycerides allow for maximum energy to be quickly allocated to growth and development.
- Balanced Fatty Acid Profile: Broader source of energy for growth and optimal weight gain. Mimics whole milk profile for more efficient utilization.
- Plasma: a highly digestible source of functional proteins, which enhance immunoglobulin levels for optimal intestinal environment and protection against disease causing pathogens.
- Superior Mixability: Protein encapsulated fats provide unique technology for superior mixing, and improved fat digestibility for increased performance.

# Beef Mineral™

All-season, free choice, loose mineral for all classes of cattle.

### Ideal for natural, pasture fed beef.

- Balanced levels of minerals and vitamins, crucial to grass based and forage only diets
- Highly bioavailable forms of trace minerals optimize animal health and productivity.
- Formulated for the Northeast to compensate for vitamin and mineral deficiencies in forages.
- Optimum levels of vitamin E and organic selenium to provide strong antioxidant protection and immunity.
- Palatable to encourage consistent consumption.
- Weatherized – no caking or clumping, and reduced nutrient loss from leaching.
- No medication, growth stimulants or hormones.
- Optimized trace mineral package promotes improved immunity and hoof integrity with reduced infections, reduced inflammation, enhanced fertility, increased fiber digestibility, reduced rumen reactivity with less microbial damage
- Contains copper, do not feed to sheep

Calcium	Min	13.20 %
Calcium	Max	15.84 %
Phosphorus	Min	6.50 %
Salt	Min	18.00 %
Salt	Max	21.60 %
Magnesium	Min	6.50 %
Cobalt	Min	40 PPM
Copper	Min	1,250 PPM
Iodine	Min	200 PPM
Manganese	Min	3,500 PPM
Selenium	Min	32 PPM
Zinc	Min	5,000 PPM
Vitamin A	Min	250,000 IU/LB
Vitamin E	Min	350 IU/LB

# Beef Raising Guidelines

**Day 1:** Feed 4 quarts of high quality colostrum (>200 IgG) within 2-6 hours of birth. Feed another 4 quarts colostrum 12 hours later.

**Day 2- 60:** Feed **Opti-Milk Essential** (Contains Bovatec) OR **Calf Care 22:20 Non-Medicated Milk Replacer**.

**Day 2- Week 11:** Offer free choice **Opti-Caf** or **AlphaLine Start calf starter** (both contain Bovatec), up to 7 lbs/day, beginning with small amounts. Calf should be eating 3-4 lbs starter/day by weaning at 60 days.

**Day 28- Onward:** Offer a small handful of hay daily (ideally 5-10% of total dry feed).

**Week 12- 15 months:** Transition gradually from calf starter to an equal amount of **Opti-Heifer Pellet** (Contains Bovatec) or **Textra 18%** (non medicated), or **Ultra 20% pellet** (non medicated), increasing amounts daily, up to 6-8 lbs daily. Can introduce high quality fermented feeds such as haylage or silage. Offer free choice forage.

**Finisher: 15 Months - Finishing:** Free choice forages (fermented feeds or hay) and 6-12 lbs/ day of one of the following products depending on forage quality:

**Hi-Line 16% Pellet, Ultra 20% Pellet, Stock NCA Sweet 16%, Textra 14%, 16%, or 18%** (all non medicated).

**Breeding/ Lactating: 15 Months- Onward:** Free choice forages (fermented feeds or hay) and 6-8 lbs/ day of one of the following products depending on forage quality: **Hi-Line 16% Pellet, Stock NCA Sweet 16%, Textra 14%, 16%, or 18%** (all non medicated).

**Quality grass based or forage only diets:** Offer free choice **Beef Mineral** (all natural, non medicated) to all classes of beef cattle. Optimum intake is 4 oz/d.

**Poor quality or lack of forage:** Feed **Forage Extender Pellets** to replace up to half of the forage in the diet, pound for pound.

Leading Animal Nutrition

# Opti-Caf™

Highly palatable textured calf starter with rumen development and digestive support

- MOS prebiotic to maintain healthy digestive function
- Steam flaked corn increases starch digestion & energy
- Organic minerals for optimal bioavailability
- Diamond V® XP yeast culture for gut health and feed efficiency
- Bovatec® for control of coccidiosis
- Clarify® seasonally added to decrease fly populations

# AlphaLine® Start

A full-potential calf starter designed for a seamless transition from milk, and to develop a robust rumen that supports high intakes for exceptional growth

- High quality protein sources and amino acids balanced to support exceptional growth
- Carbohydrate sources including starch, sugar and soluble fiber to avoid nutritional scours at high intake levels, and to support young ruminant papillae
- Bovatec® for control of coccidiosis
- Clarify® seasonally added to decrease fly populations

# Opti-Heifer™

An 18% high energy heifer pellet that supports high growth rates for size and stature from a complete and balanced nutrient profile based on current research.

- Bovatec® helps boost feed efficiency and gain without compromising feed intake

# Hi-Line 16%™ + Ultra 20%™

Medium energy pellet

- Fortified with vitamins and minerals
- To be fed with good quality forage

# Textra™ Feeds

High energy textured feed

- Available in 16%, 18%, or 20% protein
- Fortified with vitamins and minerals
- Quality ingredients to provide consistent and proper nutrition

# Stock NCA Sweet 16%™

Textured feed for a variety of stock

- No copper added, suitable for sheep, goats and cattle
- Yeast culture for improved gain and feed efficiency

# Forage Extender™

Essential quality fiber for when hay is poor quality or in short supply

- May be used to replace up to half of the forage in the diet on a pound for pound basis.  
Find full nutrient analysis at [poulingrain.com](http://poulingrain.com)

# \*NEW\* Cattle 40™ Show Pellet

Ultra-high protein top dress pellet for dairy and beef calves, heifers, and young stock, designed to promote lean muscle growth and accelerated stature for sale prep and show.

- Chromium for improved immune function, growth and overall health.
- GIT Activator™ probiotics, prebiotics and enzymes for digestive health and maximum nutrient utilization
- Highly bioavailable forms of trace minerals for optimized health and max bloom
